Index to volume 24 1991

No 1 February 1–64
No 2 April 65–128
No 3 June 129–192
No 4 August 193–256
No 5 October 257–320
No 6 December 321–416

Articles

A knowledge-based system for the selection of fluid film journal bearings
W.B. Rowe, K. Cheng and D. Ives 291

A refined model for the thermal hydrodynamic lubrication theory of high-speed rolling. Part I: effects of operating conditions
J.-F. Lin and S.-C. Houng 151

A refined model for the thermal hydrodynamic lubrication theory of high-speed rolling. Part II: effects of material properties
J.-F. Lin and S.-C. Houng 163

A rolling ball test for establishing contact fatigue behaviour of bulk materials, surface layers and coatings
J.W.M. Mens, C.A. Boose and A.W.J. de Gee 351

A set of solutions of Reynolds' equation for finite slider bearings
A.E. Curzon 207

A study of lubrication by liquid crystals
B.I. Kupchinov, V.G. Rodnenkov, S.F. Ermakov and V.P. Parkalov 25

Acoustic emission method for research and control of friction pairs
G.A. Sarychev and V.M. Shchavelin 11

Acid-base determination of lubricating oils
M.F. Fox, Z. Pawlak and D.J. Picken 335

Additive interaction and lubrication performance in a polar additive binary system
K. Nakayama and P. Studt 185

Adiabatic solutions of finite-width journal bearings with rough surfaces
J.-Y. Jang, M.-J. Cheng and J.-F. Lin 373

Characterization of higher molecular weight oxidation products of formulated and unformulated polyphenyl ethers
M.A. Keller and C.S. Saba 323

Composition of lubricating oil in the upper ring zone of an internal combustion engine
G.P. Bush, M.F. Fox, D.J. Picken and L.F. Butcher 311

Computer-aided friction tester
S.M. Benabdallah and J.-P. Chalifoux 403

Critical physical conditions in the lubrication of automotive valve train systems
J.C. Bell and T.A. Colgan 77

Design of annular recess hydrostatic thrust bearing under dynamic loading
T.A. Osman, Z.S. Safar and M.O.A. Mokhtar 137

Determination of gear tooth friction by disc machine
K.L. Johnson and D.I. Spence 269

Effect of surface roughness on elastohydrodynamic lubrication of line contacts
D.-S. Wang and J.-F. Lin 51

Effect of viscosity on the biodegradability of automotive lubricating oils
O.O. Amund and A.G. Adebiyi 235

Effect of waviness on the wear behaviour of 080 M40 (EN8) and 817 M40 (EN24A) steels
R.F. O'Connor, W.J. Tomlinson and L.A. Blunt 259

Elastic distortion of a large thrust pad on an elastic support
N.M.E. Ashour, K. Athre, Y. Nath and S. Biswas 299

Elastic/plastic contact of surfaces considering ellipsoidal asperities of work-hardening multi-phase materials
J. Halling and K.A. Nuri 225

EP activity evaluation of some 2-phenyl-3-phenylimino-5-arylimino-1,2,4-thiadiazolidines
T. Singh, A. Bhattacharya and V.K. Verma 397

Erosion and corrosion of cast iron under cavitation conditions
W.J. Tomlinson and M.G. Talks 67

Experimental method for quantitative analysis of transient EHL
N. Ren, D. Zhu and S.Z. Wen 315

Experimental study of membrane filtration for the recycling of synthetic water-based metalworking fluids
S.M. Mahdi and R.O. Sköld 389

Ferrography and fractal analysis of contamination particles in unused lubricating oils
G.W. Stachowiak, T.B. Kirk and G.B. Stachowiak 329

Friction behaviour and boundary lubrication film for the molybdenum dithiolate anti-wear additive
Yangming Sun, Sijuan Jiang, Jinyin Yong, Linqing Zheng, Kalue Tang and Dedong Wu 357

High-load, squeeze action linear bearings with beam deflection
N.N. Clark, J.E. Smith, J. Smith and R. Craven 213

Imaging of lubricating oil insolubles by electron microscopy
P.J. Shuff and L.J. Clarke 381

Inverse micelles and solubilization of proton donors in hydrocarbon formulations
M.F. Fox, Z. Pawlak and D.J. Picken 341

Key parameters for the reliable prediction of machine failure using wear particle analysis
V. Hudnik and J. Vizintin 95

Multiple contact model in the problems of tribomechanics
I.G. Goryacheva and M.N. Dobychin 29

Non-intrusive laser-based, full-field quantitative flow measurements aided by digital image processing. Part I: Eccentric cylinders
M.J. Braun and R.C. Hendricks 195

Non-intrusive laser-based, full-field quantitative flow measurements aided by digital image processing. Part 2: The hydrostatic journal bearing
M.J. Braun and C. Batur 277

On the abrasive wear of some polyimides and their composites
U.S. Tewari and J. Bijwe 247

Pressure-viscosity effect on the solutions of a lubricated thick elastic bonded strip
M.J. Jaffar 91

Refinement of engine bearing design techniques
J.M. Conway-Jones, F.A. Martin and R. Gojon 119

Relationship between the propagation of fatigue cracks and the behaviour of plastic flow under rolling/sliding contacts—effect of slip ratio
Y.-C. Chiou and J.-R. Hwang 101

Self-lubrication mechanisms in polymer composites
A.I. Sviridyonok 37

Sliding wear testing of coated cutting tool materials
P. Hedenqvist and M. Olsson 143

Solution of Reynolds' equation for a non-Newtonian lubricant in a journal bearing implementing the moving boundary conditions
D. Sharma, K. Athre, S. Biswas and S.R.K. Iyenger 85

Studies on the effects of temperature on the chemical characteristics of automotive crankcase oils and their base oils
G.C. Ofunne and A.U. Maduako 173

Surface topography and properties of frictional contacts
N.B. Demkin and V.V. Izmailov 21

Temperature-kinetic method for the determination of oil transition temperatures under boundary lubrication conditions
I.A. Buyanovsky and R.M. Matveevsky 17

The water lubricated, sliding wear behaviour of polymeric materials against steel
C.G. Clarke and C. Allen 109

Thermal effects in elastohydrodynamic lubrication of line contacts using a non-Newtonian lubricant
T.-R. Lin and J.-F. Lin 365

Thermal effects in lubrication of asymmetrical rollers
D. Prasad, J.B. Shukla, P. Singh, P. Sinha and R.P. Chhabra 239

Thermal model for a twin axial groove bearing subjected to a varying loading direction and its verification
D.T. Gethin and M.K.I. El-Deihi 131

Tribological problems in electrical contacts
N.K. Myshkin 45

Video recordings of an EHD point contact lubricated with grease
H. Åström, O. Isaksson and E. Höglund 179

Wear by abrasives: methodology and results of investigations
G.M. Sorokin, S.P. Grigoryev and B.P. Saphonov 3
